

Bordeaux 2022 En Primeur

We have been here before: despite a tricky growing season the Bordelais try to convince the world that the wines are in fact world beating.

However, in the case of 2022 we can see that the claims are backed up by some remarkable wines. Indeed, there is an honesty around this vintage. Whilst it will not be an absolute 'vintage of the century', many chateaux showed good skill to produce fulsome wines that are well worth drinking.

The season was hot, very hot. Even in the UK it was hot! There were wild fires in the region and logistics stopped moving wine at all at one point in the summer. Records were broken for high temperatures. What is remarkable though is the freshness present in the wines. This has balanced the concentration, ripeness and tannins that the vintage has been generous with.

The quality of Merlot in general has been lauded in all regions. Although, the critics' scores show that marvellous wines were made everywhere. The temperatures however did affect yields which are low meaning some wines are in high demand.

In short it is a vintage well worth buying from and should provide great pleasure for many years to come.

Graeme Broom
Wine Director
